DETAILED ACTION

1. Claims 21-24 are objected to under 37 CFR 1.75 as being a substantial duplicate of claim 1. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

Allowable Subject Matter

2. The following is a statement of reasons for the indication of allowable subject matter: The instant claims 1-20 are indicated as containing allowable subject matter as the prior art of record fails to teach or suggest a resin having the 3 components are instantly claimed or a method of preparing the resin. The examiner has considered the arguments submitted in the response of 12/20/2005, and has dropped the rejection of record in light of them. The examiner has reconsidered the references of record, especially CN 1247130A, and has performed an updated search of the prior art, but no new relevant references have been found. Therefore the instant claims 1-20 are indicated as containing allowable subject matter.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Amanda C. Walke whose telephone number is 571-272-1337. The examiner can normally be reached on M-R 5:30-4.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Cynthia Kelly can be reached on 571-272-1526. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
